Purevision™ Classic CPV5 and CPV5W multi-fuel stoves

Stylish and elegant with classical looks the new CPV5 and CPV5W are solid, heavy duty stoves with a huge glass fire viewing window for optimal viewing of flames. The larger CPV5W retains a nominal output of 5kW, but provides a wider operating range making it ideal for larger living spaces.

- Heavy-duty stainless steel operating tool and stand for ease of use and attractive appearance.
- High quality cast iron top plate, top blanking plate for rear flue connections and base unit (pre-fitted) with adjustable feet for levelling, providing flexibility when installing the stove.
- Reduced clearances to combustibles using the included heat shield and twin firebox construction.
- Optional external air kit for direct connection to the outside.
- High-quality ceramic firebox liners that are self-cleaning, hardwearing and very attractive.
- DEFRA exemption for burning wood logs in smokeless zones.
- Full multi-fuel capacity as standard, so no kits or adaptors needed for burning smokeless fuels.
- Innovative active baffle system for flexibility and ease of use.
